PROJECT EXPERIENCE

Piri — City Finder App

- Piri is an application for people looking to relocate. The app offers information about cities based on factors like cost of living, safety and security ratings, employment prospects, local education etc. Piri supports community-driven approaches to provide accurate information about the cities by encouraging local residents to comment and write reviews on the app.

WORK EXPERIENCE

Assistant Store Manager — Jimmy John's, Eureka, MO

June 2018 - Present

- Helping to manage daily restaurant flow through managing inventory needs, maintaining low labor against sales, creating and monitoring employee schedules.

Operations Manager — Thumbs Up Marketing, St. Louis, MO

October 2016 - June 2018

- Created and maintained a daily strategy as well as weekly and long term strategies for multiple clients in a call center atmosphere; including but not limited to:
 - Delegating hours for projects to reps.
 - Client contact services for majority of projects.
 - Creating and maintaining standard operating procedures through the use of daily reviews with employees.
 - Coaching staff to meet client standards through onboarding procedures to training materials.

Co-Owner/Operator — Barnfest, St. Louis, MO

February 2013 - October 2017

- Barn fest was a small DIY (do it yourself) focused community organized festival. As the co-owner and operator I oversaw the logistics of the entire event itself, from getting equipment necessary to operate all the way to vendors. I planned and created the marketing campaigns, managed the crew, designed the event aesthetic, as well as performed during the events.
